Hmm... That tank is nice. That ballistic emplacement thingie isn't, could use more detail on the model, and a better skin. The hitler model is alright, but the skin could use alot of touching up. The powerplanet model is nice the skin could more detail, and variations and stuff.

Thanks To Old Member Godhates And Me We Together Have Created The Allied MRLS Also Known In WW2 As A Katyusha (Was Russian). So Here It Is In All Its Glory:

Yup, the final version of the Allied Bazooka model is now finished all it needs now is the skin which is already made so keep tuned for the skinned version but here are 3 pics:

Enjoy!

That last screen shot is a little too dark to see anything in there (except for those white rockets).
