Hi,

I am completely new to modding... Could anyone tell me to where I should be extracting the following, downloaded from Westwood's ftp site:

renegadetextures.zip
multiplayerlvls.zip
vehiclemodels.zip
singleplayerlvls.zip

I have gmax1.2 and RenegadeToolsInstaller2 installed.

Thanks for your help.

Dominic

not sure about the vehicles or levels but your meant to export the textures to C://program files/renegadepublictools/howto/multiplayer maps/map template (i think thats right)
