I would imagine that they are preparing things to use against him in court. Whatever it is, it's not going to go good for Saddam.

Interesting thing, I have heard that a number of people in Iraq have offered to drink Saddam's blood, so I don't think that they like him very much.

I'm sure we'll hear about this pretty soon.

Let the Iraqi people decide how Saddam gets punished(after holding a fair trial, of course, even if the skunk doesn't deserve it...just let them carry out the sentencing and execution). It's only fair; they're the ones who suffered the most under him. If that happens, however, don't expect much to be left of him afterwards.

Good luck finding an impartial jury. They all either want him dead or back in power.
