1, Anyone know if the mod "cops and robbers" work under LFDS ?

2, Where can I download this mod?

It will work as long as it doesn't use any custom scripts (scripts.dll).

[HLOWTomten]cool cool, now I just need the files, not easy to find it.

If you are talking about Flukeshot's game last night:

The Cops and Robber mod is a scripts.dll mod, hence it won't work with the Linux FDS unless Jon manages to find a way to hack the Linux FDS.

Additionally you won't find that particular mod on the net, as it is still in the early stages of development.

Weird cuz I know I downloaded cops and robbers before but deleted it since I never used the files in the zip file. I just played it today on Wolspy cops and robbers server and it was pretty funny. Too bad it wont work on lfds cuz I was thinking of hosting it on my own server

If anyone knows if this C&R mod is available, please tell me - i run one of the two dedicated C&R servers on USA (Deathserv). This would be great if it's out/when it comes out - I'm using Vloktboky's sniper script at the moment! Nice work Jon!
