When I click Submit, it says "Invalid Sesion". Can this be fixed? I only was able to post once in each section. I'm posting this here because I already Made a post In technical Help, General Discusion, & A private message. Can you please help me?

Oh, I hate that Invalid_Session message. I get it whenever I try to select an avatar, which is why I don't have one. I think there was a topic about this Invalid_Session message on General Discussion a couple pages back, but I don't remember what it was called.

Yeah, to make a long story short, it's caused by AOL, Proxy Servers and Web Filters.
