people i am truly sorry, but yall need to shut the fuck up, and pay more attention about fixing a game than kickin a fuckin cheater, yall guys fucked up, with lag, errors, missing textures and all that, u think rengaurd gona make a difference, i know that rengaurd is for cheaters, but i usually see 2 cheaters in a month...

I payed 52 fucking canadian servers, and still to this date i lag like hell, there is no update for the enormous amount of errors and glitches, if we could concentrate on making the game better by fixing it, instead of bringing in some rengaurd shit, that hackers will get rid of it as soon as it comes out, like there is no impossilbe things for people out there hacking, for an instance, look at the final renegade shit, look at it, whoever made it, has access to the main frame of renegade, and whoever is that will make further hacks or whatever you call to get rid of the freaking rengaurd crap..

people please concentrate on fixing the game, such as mod makers please, if you guys concentrate on fixing the game it would be much better, this lag issue, there are so many things to be fixed!!

I am so sorry to swear, because just now westwood online was shut down!!!

No, how about you shut up.

Renegade was crawling with cheats last time I played, Renegade needs Renguard, every game needs an anti-cheat.

Glitches?? Lag?? I never really found that.

1 or 2 cheater a day (with final renegade) is normal. Tis is decreasing, because most of the know

cheaters are banned

But imho the bighead users are the biggest problem we have, because they destroy the community. They are the cause for distrust, because nobody knows, if someone is a good player or just a f*cking Bighead user.

PLEEEEEEEEEEEEEEEEEAAAAAAAAAAAAAASSSSSSSSSSSSSSSEEEEEEEEEEEEE finish rengaard soon!

policepolice there is no update for the enormous amount of errors and glitches, if we could concentrate on making the game better by fixing it, instead of bringing in some rengaurd shit

RenGuard is making Renegade better by getting rid of cheaters and if you want these so called "errors and glitches" fixed why don't you do it instead of asking/telling people what to do in their own time.

policepolice...hackers will get rid of it as soon as it comes out, like there is no impossible things for people out there hacking, for an instance, look at the final renegade shit, look at it, whoever made it, has access to the main frame of renegade, and whoever is that will make further hacks or

whatever you call to get rid of the freaking rengaurd crap

The Final Renegade hack isn't really that hard to make for someone who knows what hes doing, all the hack is (as I see it) is the heads were edited and made bigger (.w3d files) and they edited the values in the objects.ddb file to make most weapons deadly to anything. do a little tweaking and you have the perfect hack really

policepolicepeople please concentrate on fixing the game, such as mod makers please, if you guys concentrate on fixing the game it would be much better, this lag issue, there are so many things to be fixed!!

Well really if you want to you could call RenGuard a mod and it is fixing the game and the lag is all you (as mentioned somewhere above)

With all this crap you have posted policepolice, I say you are ether, making your own hack or you use FR

Do you think a little kid like that is mature enough to possibly make a cheat?

I have so few cheaters because I have banned so many who have cheated that the number on my server is really small.

As for the bighead users I have a Screenshot rule on my server If I ask and they get stupid I just kick them and the people I have found who may be using I still own through skill.

So go fuck off and die

Someone driving away without paying for gas, is a cheater
Someone running a red light, killing someone, is a cheater.
Stealing a candy bar from the store is cheating.

People Cheat at Board Games, Cards Games, Gambling, Relationships, Work, and every MP

Computer Game I've ever played.

Cheating is related to a type of person, a mind set, a life direction.

That is what we have Police, Law, Order and Game Server Moderators, but I look forward to RenGuard!

That's a fucking huge run on sentence.. I tried to quote the "look at the final renegade shit, look at it, whoever made it, has access to the main frame of renegade" as it seemed funny, but then I realized that it's one huge sentence.

Laff Laff.
