Before you go being a smartass, you might want to understand that my reply was directed at Alkaline, hence why I didn't quote hareman... And why he didn't attack me.

Nah Alkaline's post was out of line and Ack just called it as he saw it. I gather there is history here and I will not presume to get involved in it. I do think that maybe someone should read what I put up lmao.

It is really funny.

A side note is that I went into the server and totally owned it with 12 minutes left.

I really wish that people would take the time to learn to play before talking trash.
