I've nearly rebought a new motherboard and reformat the OS, now i reinstall renegade repatch eccc, now i forgot my old account on westwood online and create a new one. but i encounter some problems, for first i'm not in ladder, i can make 300 pt but every time i serch my profile into the ladder, no result.

for second why on westwood server list's (into the game) game list is always old? for example if i find a game C&C_Volcano.mix 15/30 i login and response "Server is full"?

You know "PLZ" isn't a word? But "please" is? That should help out with your English troubles, at least partially.

Lord Vecna for first i'm not in ladder, i can make 300 pt but every time i serch my profile into the ladder, no result.

The ladder has been screwed up for some time. Its Westwood/EA's fault there is nothing you can do about it.

Lord Vecna find a game C&C_Volcano.mix 15/30 i login and response "Server is full"?

These games are probably running a program called WOLSpy. It lists the games on WOL and on GameSpy.

The (WOL) server listing you see only shows WOL players hence its not accurate.

Again there is nothing you can do about it.

Actually, WOL is messed up so it doesn't show the right player number. I was trying to play on RenAlert a week or so ago, WOL said that there were 8 people playing, it was actually full.

Actually lol is a word. Translated to englisch it means fun. Ok it's a dutch word, but it is a word.

Oh and there is a problem with choosing avatars. I can't change mine either.
