The debug version we have right now isn't suitable for "public" viewing, and the cheat-checking hasn't been integrated into the version that I'm running. mac and Scorpio spent a great deal of time this last weekend on the client-side. Hopefully I can get an update out of them soon.

ok np Crimson

Thanks for letting me know.

btw is there anything i can do to help promote this etc if so let me know.

I have also put up a Report League for C&C Renegade over at <http://www.klanwars.com> maybe we could do a little Bussiness sometime

Thanks JaLiPiN0

Hey drastic, still out there to troll topics attempting to ruin peoples reputations with completely off-topic information?

jali don't leave without a game man. I miss the old T.B.N.T in TS
