hi.. somewhat a half year ago, maybe longer, my cousin cheated by using a modded objects.dbb. Well, his name is chame_666 and used it on the same computer as the one im on now... well.. cuz of his stupid cheating, i somewhat cant join all servers, in some, i get banned inmediately, no doubt that it's cuz of the damn objects.dbb.. is it possible to get my IP from the banlist? I hope so...

Well you're probably going to get all kinds of answers here, but personally, I think you (or your PC...) should be given another chance after that long time...

But also note that not all server owners read these forums, you might have to contact them on their own forums or something to get unbanned from those.

And then again, that's just my opinion.

It's going to be a tough sell, getting yourself unbanned.

Bidboodmy cousin cheated

lol. You gotta love that whole "my brother did it" vibe.

So, you let your cousin on your PC, and he knew the address of the cheat, and downloaded it whilst you wasn't looking ? :rolleyes:

yes, i wasn't there when i used the mod... though he showed me, i thought it was fun and checked it out too, but i never joined another server that wasn't hosted by myself so the IP was already banned then :/

By those words, you sound guilty. Therefore, you should stay banned.

That's harsh, but yes, it looks like you are guilty. Even if it was a typo, you still admitted to trying it and as the saying goes once a cheater always a cheater.

I like how you refer to it was a "mod" making it seem not as bad. It's a cheat.

It's your PC, your copy of the game, your the one that is responsible for what ever happens with it.

i know

but he said he was going to play renegade, and i believed it and left him alone.... <_<

how could i know he was gonna download the mod and screw everything up?

Just ask server owners to unban you...

Thats the only way its gonna happen.

And if they don't agree to unban you, wait for RG, and then they won't care if someone tries to cheat from your PC again.

Most DHCP servers always give the same IP to a MAC address when it renews its lease, unless it is unused for awhile then it will be given to someone else. As long as you don't get a new network card, you should keep the same IP.

Totally agree with that, they were banned for life so they should remain banned for life...

Also folks wouldnt trust you anymore

you said you'd ban em for life, but once Renguard is released you let them all back in

I should have said "might" instead of "gonna".

Thats a good point zunnie...I'd probably take that attitude towards them too.
