Every single one of your pages has a typo -- "reserved", not "researved".

Otherwise it looks like a direct rip-off of the CW site... not surprising since yours was designed by the same guy. Are they quitting Renegade?

Yes Crimson

It was Designed by the same guys from the other League you Stated but there one Big Difference, I own it & its a Report League for Renegade. & it also gives the Gamespy clans the option to use a Very good Ladder system to use as there clans did not register anything from westwood.

& you can take my word for it This League is totally owned By me & not them.

& yes i have seen all the BS posted about you guys over there. but Because i used that site too it don't mean i condone that bs ok.

like i have told you before i'm a grown up Adult not a child with a chip on there block.

Thanks JaLi

I haven't used the Renny one yet, but the Halo league is pretty well run, most disputes get dealt with pretty quickly. Of course, you can't cheat in halo...

DarkFish Of course, you can't cheat in halo...

I quit playing halo because of all the cheaters. I have seen more than 20 cheaters in that game and I can provide links to several known cheats for halo.

No cheaters INDEED :rolleyes:
