From what I see, "Eminem Is Back" is originally released in Europe. Can anyone tell me how long it has been out? It seems like it would be a few years old because his voice sounds similar to that of the "The Slim Shady LP" cd.

Damn strait. lol i know this is gonna start another flame war just as it always seems to do when i

say anything about music, but rap is mindless repeditive garbage that takes no time or thought to create. Set anyone in a room for 5 minutes and as long as they have a bank of obsenitys in there mind and a annoying beat generator bang you have yoru self an ENTIRE rap cd.

Now, let's take a moment to think.

Not all rap sucks. Just most of it.

Let's take "Fiddy" Cent. His lyrics are so intensely uninspired, they basically go like this:

Song Title: Hos is foh' Mes!

[Stinky percussion in the background]

UH UH UH UH UH UH

I like my Muh-f*&^ing hoes!
Oh nos!
When I f*&^ my hoes, I smoke crack!
Oh nos!
All the women in the world should have sex with me!
Oh nos!
I killed someone on the street yesterday!
Oh nos!

OOOOOOHHHHH

I drive big cars!
Oh nos!
I pack twin glocks cuz I lost my job!
Oh nos!
Listen up kids, rape is cool!
Oh nos!

OOOOOOHHHHHH

Whereas, Eminem actually thinks about his lyrics and has musical talent. At least in my opinion.

I happen to like rap. it's adrenaline pumping music. rap takes a lot more thought than you think. if you just rhyme stuff...u can call it rap...but it's gonna suck. try to actually listen to a whole cd...not just what singles come out, not saying none of u havn't...but i best most havn't.

According to HMV, the Eminem Is Back CD came out on the 15th (4 days ago). Fuckin' cheap for a new album too.

Not all rap sucks, and trust me not all forms of other music is good either. You can find pathetic excuses for talent in every genre of music. Good rap? Yes, there is such a thing, and if you don't think so, you have a very narrow opinion or closed mind.

Talented rap? Outkast.. Yes, everyone has heard "Hey, ya" but they bring a since of originality to the music. They have a style and a intellectual value other than "Get in my ride ho! My name is Fat Joe! YO!".. Beastie Boys, anyone who can make a CD that ends with four white guys rapin' to Tibetan monks and including a song rapin' to a flute and a violin is also talented.

Let's not forget about Rage Against the Machine. The only Rage Rap band that has any brains. It's not Linkin Barf, or Lame Trisket. It's food for thought that makes you want to revolt.. Or at least this is my take on the whole thing, but I will agree most rap is crap, but I'm not so blind as to say all.

Or perhaps you're just blind and think some of it is good, conversely, when it isn't.

Right, it's just my opinion. I like just about all forms of music, my favorite however is dark industrial, and progressive metal. My favorite bands being, Tool, Stabbing Westward, Sublime, Rancid, The Misfits.. and the list is just really really large and boring to read.

I just don't really exclude any kind of music unless I hear everything it has to offer. That's all I'm trying to get across really. Anyway, I'm done with this thread, it's like a religious debate.

That in my opinion is the worst song out of both CDs. GG. Anyways there is a very small amount of good rap out there, all the rest is rock, which for the most part is good. Eminem = stay away.

I don't think rap sucks. I think rap is the same as all other kinds of music in that some of it is good and some of it isn't. Although you may not consider it to actually be music.

Do you happen to listen to Dream Theater since you listen to Prog. metal?
