Like we need anymore :rolleyes:

Anyhow, I have a 16 player (lagless) server up. It is dedicated to my clan however it is a public server. The host name is SFVsvr1. Feel free to play it, rather new so I thought i'd announce.

Huh not really. A reason would though. And just because someone isn't banned from here, doesn't mean they shouldn't be.

drkhazeAre you hosting any fan maps??

No, we can think of some fun nights if you want like NS servers had/have I dunno. I personally like the normal maps the best.
