Some people are really dumb. Can't you act like in the movies? Idiot, seems like someone wants to be a little smart here... pathetic. What the hell are you trying to prove? Show the whole forum that your smart to notice that "no link". Shit...

I already know that click bot crap... aimbot doesn't exist because no one even bothered to make a better one than click bot. I rest my case... why am I even explaining to you? who are you to me?

Can you see my signature? Does that look like someone who doesn't understand or even know Renegade?

its actually quite easy to make a aimbot program if you knew how. infact i could attempt to write a aimbot program and probably succeed, but dman if a working aimbot came out then Renegade would die due to n00bs using it and wrecking the games for others, and thus no-one playing Renegade.

1st of all, the only ones to get last word is either gonna be me, modderator or anyone else that thinks the way that sk8rimuk and i do. because:

1. You try and compare that statement to ANY of ACK's? come on! i guarantee you ACK can "shoot" down anything you send at him...
 2. yet again "use a little brain cell" WTF is that suppose to mean?!, brain "Power" maybe?...
 3. "i just wasted my time for such an immature individual" ...n00b why the hell would you say something like that if you "waste" your time?
 4. "such an idiotic remark" lol....i could have loads of fun with this one....*must limit to just 1....* ok... the f*ck? Sk8rimuk can likely Own you, and i believe that if he were likely an arguative person(i havn't yet seen him argue anyone to any standard) than he would probably make you run off cryin' to your mommy... :sly:
 5. "why not read the post first rather than moving your stupid mouth and just talk"....i can't f*cking under stand if that is an insult, or a suggestion... :stern:

I hate cheaters. It dont make any sense to cheat. I know this is a joke topic.... but still.

The reason people hack and cheat is the same reason a guy would go to school with a gun and shoot up his gym class because they picked on him.

I say people who develope Aimbots should get the max penalty for hacking federal systems.

It aint right.

umm please don't mention that, i guy i know is currently "depressed", has his hunting lisenche (which means he has a gun) and before he got depressed "everyone picked on him" <--- that's what he claims, it's a big f*cked up story so im not even gonna bother, but one way or another the mere thought of this guy, gives me the creeps.....

Exactly. Cheating ruins a game, especially when cheating gets through to multiplayer. 'Nuff said.
