Okay, I've got a little problem with C&C Gold. I have installed it and set the program compatibility to Windows 95, but it does not work. I have also installed the Windows XP patch for it, yet nothing happens. Any ideas on how to get it to work?

I did.

Well anyway I can start it but now it asks for the CD..... Which I don't have. Any ideas on how to get it to work now?

Hmm, there may be some ancient no-CD crack somewhere. I suggest checking at Gamecopyworld.

I borrowed it from my friend, but forgot to test his No-cd crack thing. He had never had a problem with it.
