Is there any code available for that.

Dependant on how those stats are being generated, That code could be really useful in order to be able to list Linux FDS's on WOL.

Dante gave both Crimson and I the code. Im not sure if im allowed to give anyone else the code, you will need to ask him directly.

How would one go about contacting him.

Didn't he say he was not going to be involved in Renegade anymore?
Does he still read his PM's?

Depends on how you are doing getting the information.

How are you getting the information (rough idea)?
