Thanks to Crimson for hosting this file!

It doesn't sound great on it's own, but combined with someone dying this manically evil laugh does wonders for the ego. And yes, for those who are curious thats my laugh. I've been told that the quality of the recording isn't that great, but hey with windows sound recorder you get what you get.

Ya, it's loud, unfortunately thats the only way I could get it to sound any decent while in-game. With the Sound recorder the only volume options were to increase or decrease the volume by 25%. One down was too soft for in-game playing. At least for my liking. If you need it softer, feel free to reduce the volume via the Sound Recorder.

The quality is indeed pretty bad, although I do like it

I'd rather go for Daffy's evil laugh though
