Just use the same game.exe from your renegade dir. The exe is the same in both reborn and on renegade.

b.t.w.

renalert sucks just as much as reborn.

Reborn (to the best of my knowledge) still uses a haxored version of game.exe, so the no-cd patch will make wierd things happen to Reborn, not out of the ordinary, as launching Reborn makes wierd things happen to Reborn as well...

You can use the same no-cd crack made for renegade on reborn. Reborn doesn't do any exe hacks like renalert.

Hope you realize that "Reborn" hacked the game.exe to prevent Single Player from showing.

All we did was modify Strings.tdb to say "Not Implemented."

You're a dumbass. Knowing that, your mother probably is too. Wouldn't be surprised if your father was, either.

Alkaline, pull your head out of your ass. It was already stated in this thread by Dante that Reborn used a hacked version of the game.exe. What proof do you have that shows Renalert does? It sure as hell looks like an untouched version of game.exe to me.

How about proving your point instead of attacking someone when you disagree with them?

on irc:

<Alkaline> renalert is a modified exe

<Alkaline> if it weren't it would ask for the exe

<Alkaline> I mean cd

<Alkaline> but obviously it doesn

<xptek> No, it's not, the game.exe is original.

<xptek> Do an md5sum on it.

<Alkaline> no original game.exe requires a CD in the drive

<Alkaline> renalert doesn't

<Alkaline> so its not original

<xptek> md5sum doesn't lie.

<xptek> You dont need to edit the game.exe to not make it require the exe.

<Alkaline> UGH!

<xptek> I mean CD*

<Alkaline> ORIGIANL EXE REQUIRES GAME CD to be in your cd drive

<Alkaline> ya it does

<Alkaline> youc an't start renegade without it

<xptek> Ovbiously, but, you can change that without editing the exe.

<Alkaline> what

<Alkaline> ok, my original exe is 5.19mb

<xptek> You just have to remove some file dependencies in the always.dat

<Alkaline> the no cd crack is 4.19

<Alkaline> how is that NOT modified
<xptek> That still doesn't mean it's modified. Files change size when compressed/uncompressed.
<Alkaline> lol
<Alkaline> do you want me to quote you on this?
<xptek> Go for it.

:rolleyes:
