When I boot renguard, it says this:

Unauthorized file data\autocomplete.ini has been found in your renegade directory

Disconnected from RenGuard network

I installed autocomplete in my renegade directory. It isn't a big deal, since I can just move it, but I think renguard should allow this file.

it blocks any ".ini" file it can find, unless it knows the file is allowed

Whenever I install RenGuard, I try and play renegade and get the error:

Game.exe has caused an error

Game.exe will now close.

And I uninstalled RenGuard and it was fine.

Apart from Inow can't get online but I am sure thats nothing to do with it.

Another bug:

I was playing in a renguard server a few minutes ago, the map was volcano. I saw an empty hummvee in the field. I got into it, spun the turret around then got booted from the game for cheating. Of course, I wasn't. Here's the messages in the tab:

Quote:Unauthorized file game2.exe has been found in your renegade directory

You have been kicked from the server for having unknown files.

Bad/Corrupted file C&C_Volcano.mix has been found in your renegade directory

You have been kicked from the server for cheating.

Unauthorized file data\always.dbs has been found in your renegade directory

You have been kicked from the server for having unknown files.
Unauthorized file data\Always2.dat has been found in your renegade directory
You have been kicked from the server for having unknown files.
You have been kicked by RenGuard from Server All Out :: all-out.co.uk for: UNKNOWN FILES.
You have left server All Out :: all-out.co.uk.
Unauthorized file game2.exe has been found in your renegade directory
Unauthorized file data\always.dbs has been found in your renegade directory
Unauthorized file data\Always2.dat has been found in your renegade directory
Disconnected from RenGuard network

So, it seems like a series of errors. Some sort of vehicle bug that caused the corruptions? Who knows.

Caused by auto update. I will lock out clients before they get these errors.. once I enable a new version, older versions become invalid and have to be removed or they do exactly this..

drkhazeAnother bug:

Alright, thanks. I just hope in the meantime server admins won't think players are actually cheating and place permanent bans on them. But I'm sure they could be rectified by your post.
