NEVER download a new program on day one.

Let the 10,000 n00bs who jump at every latest "thing" and have 3,000 skins of Hotwire naked do it first.

Download after a week or two after everthing is real-world fixed.

Brought to you by the coalition for common sense.

Sonic the HedgehogWell if everyone download 1 week after everyone else...noone would ever

download the software...

We can count on you and your pals though, SO THAT WON'T HAPPEN. Meanwhile the rest of us laugh at your comments of:

" OMFG!!!!11111 MY NAKED SAKURA WITH MULTICOLOR HEATSEEKING DILDO SKIN DOESN'T WORK!!!!11111"
