i think it's bullshit (if you havn't been able to tell by my previous posts). i mean, all of a sudden there's this hack that happens to be heard of when RenGuard comes out? It's possible to have a hack come out the same day, but some uber hack that can beat anything you throw at it on the SAME day as an anti-cheat program is released? it's hard to believe. i need screenshots and testimonials and everything else the people, who claimed to have seen it, have shoved up their asses.

OMG Twl\$Ta !!! I got m0000 v6.9. !!

Rex is hacking reality now!!!
OMG I'm feeling like Neo in the Matrix now!!!!
OMG does this mean there are also Agents??? OMG OMG NO!!!!

Rex wakes up and sees a girl sitting in front of him.

Mysterious Women: As you can see, we've had our eye on you for some time now, Rex.

She opens a file. Paper rattle marks the silence as she flips several pages. Rex cannot tell if she is looking at the file or at him.

Mysterious Women: It seems that you have been living two lives. In one life, you are G. Cruz, program writer for a respectable software company. You have a social security number, you pay your taxes and you help your friends with moderating some Renegade servers.

The pages continue to turn.

Mysterious Women: The other life is lived in computers where you go by the cheater alias m00-Rex, and are guilty of virtually every Renegade crime we have a law for, including the unauthorized use of the RG Masterservers for removal of the anti-m00hack protection.

Rex feels himself sinking into a pit of shit.

Mysterious Women: One of these, lives has a future. One of them does not.

She closes the file.

Mysterious Women: I'm going to be as forthcoming as I can be, Rex. You are here because we

need your help.

She removes her sunglasses; her eyes are an unnatural ice-blue.

Rex: OMG...

Mysterious Women: What?

Rex: Put those glasses back your face is so...

Mysterious Women: WHAT?

*Mysterious Women slaps Rex in his face.

Then she puts her glasses back on.

Rex: Aw!

* Mysterious Women thinks "Bastard".

Mysterious Women: Anyway... We know that you have been contacted by a certain individual. A man who calls himself Alkaline. Whatever you think you know about this man is irrelevant to the fact that he is wanted for acts of terrorism in more servers than any other man in the world. He is considered by many admins to be the worst cheater alive.

She leans closer.

Rex: OMG!

Mysterious Women: Yeah, it's bad!

Rex: No, I mean your boobs! They are huge!

Mysterious Women: Fuck you, Rex!

Mysterious Women: My colleagues believe that I am wasting my time with you and I'm actually thinking the same now. It is obvious that you aren't an intelligent man, Rex, but I believe you are ready to put your past mistakes behind you and get on with your life.

Rex tries to match his stare.

Mysterious Women: We are willing to wipe the slate clean, to give you a fresh start and all we are asking in return is your cooperation in bringing a known cheater to justice.

Rex nods to himself.

Rex Yeah. Wow. That sounds like a real good deal. But I think I have a better one. How about I give you the finger...

Rex does.

Rex: And you can cram that file up your Secret Service sphincter.

Some other Agents get in the room.

Mysterious Women: You disappoint me, Rex. You ain't seen nothing yet. The irony of your situation is that you have no choice.

Rex: You can't scare me with this Renegade crap. I know my rights. I want my P2P call!

Mysterious Women smiles.

Mysterious Women: And tell me, Rex, what good is a P2P call good for if you are unable to speak?

* Mysterious Women sets mode: +m

The question unnerves Rex and strangely, he begins to feel the muscles in his jaw tighten.

The standing agents snicker, watching Rex' confusion grow into panic.

Rex feels his lips grow soft and sticky as they slowly seal shut, melding into each other until all trace of his mouth is gone.

Wild with fear, he lunges for the door, but the agents restrain him holding him in the chair.

Mysterious Women: You are going to help us, Rex, whether you want to or not.

To be continued...

I have seen moohack, its not something that can be detected in the renegade dir.

Its a memory hack, similiar to trainers people use in games, the hack memory addresses.

Alkalineyou know.... because of this, people that have moohack will come in and cause chaos on the servers.

I have seen moohack, its not something that can be detected in the renegade dir.

Its a memory hack, similiar to trainers people use in games, the hack memory addresses.

:rolleyes: so lets see new RG going to examine memory as well? :rolleyes:

so obiviously taunted moohack will get you own3d... do not tuant the moo...

Please, PM me the link where I can download this "m00hack" so I can see just how "powerful" it is.

First of all, I haven't gotten around to designing a template yet. I have a job and other responsibilities that come before a11serv. And, I'm not leeching anything off Milfy's site. It's hosted on rendata.net, so you might want to contact Speedy about that. Also, I didn't rip the Renwarz theme, it comes with e107, the CMS we're both using. I'm pretty well associated with Seren and honestly don't think she'll care too much.

ALSO: you don't seem to welcome in the Renwarz community either

No, my dumbass little server I started running custom maps on a few days ago. It's already getting quite popular and I have a few regulars. I'll be opening 3 more soon.

Serenity is a very nice person and naturally would make up with you. However, if I ask any other admins I get a "He's a dick" reply Bully really doesn't like you.

well I dunno what serenity's intentions and quite frankly I don't care. I have no problem with her and she doesn't seemt to mind me.

as for her mods, ya they can do whatever they want, Its not like I'll miss anything if they ban me :rolleyes:

besides, your little server will fail if you can't even let it run for a couple of days :rolleyes:

Ohh ya I have hard time beliving you did any of those templates because you are a known bullshitter.

Obviously if you did all those you must have an email on that site, point me to that and I'll give you some bit of credibility but besides that I think your full of it because your own server's home page looks like crap :rolleyes:
