Aprime, I never really understood how you could call other people "fairies" when you have pictures such as <http://n00bstories.com/image.view.php?id=1068489649&gallery=490> in your image gallery ( <http://n00bstories.com/image.gallery.php?id=490> )

I agree with Aprime. That guy is a Fairy. A stubborn Fairy of Nothing but Immaturity I might add.

I don't see him on the memberlist though...

However as long as he's not on the team, you guys will be alright.

GW.

The only reason he never contributed before was because of Anus of Dawn. Now that he seems like he's out of the way and shut up for the most part, I think Aircraftkiller is more willing to help. This is only from my point of view.

Those are always funny.

Now I moved them all in a private gallery, happy?

Reborn has definitely improved themselves a lot over the past few months, it might soon be a decent game to play. Now if only they got some of the fanbase under control...

(ex: the forums at pcnc were a joke, i would of been ashamed to post there if I was on the reborn team)

It is indeed getting better, the current version sucks, but from what we can see the next version will be better, just get rid of "The Fairy" please.

Render a 200,000 + model on your PC, then render it on a G5. Tell me what goes faster and produces better results.

HEY! I loved it when it was shitty That's just because tiberian sun is my favriote C&C Its always had gameplay issues. thats what made it "crappy". The rest wouldnt be so hard to deal with if it had good gameplay from the begining. Thats why renalert is so fun , great gameplay.
