Pure mode: No skins, no model replacements.

Non-pure mode: Skins are allowed, but only some custom models.

Your crosshair is a skin and so is the 'crystal scope' (as far as I know) so it should be allowed.

If I'm wrong someone will correct me

Most servers will run in Pure mode as far as i know.

Pure mode is the best anti-cheat/anti-advantage method RenGuard has to offer, disabling Pure mode (and allow skins) stops the program from effectively blocking so-called 'Advantage Skins' like neon green Sakura's, bright blue stealth skins and such.

Imho i feel: Keep the server in Pure mode only.
