That was only on Fjord and was fixed in the 0.9925 patch.

Now now, don't get angry and blindly defend ACK and RA...Then you'd be like everyone else around here. :rolleyes:

You're right...I don't want to be one of those blind sheep, do i? :rolleyes:

Just because I happen to like what they're producing doesn't have anything to do with Ack. In fact, RA may be the reason why I decided that Ack wasn't so bad as I had thought.

Umbral\_DelaFlarePlease tell us why you don't like Renegade Alert.

Mostly because I found the gameplay to be crappy...And I also don't like the cheap plugs and Reborn bashings in its name. If you think about it, I'm sure ACK could fix even more bugs in that thing if he concentrated on it instead of trying to insult Reborn.

Here you go, do a search for ACK's posts with the word "Reborn" in it. Then crawl out from under the rock.

I actually think Reborn's getting better since they show the initiative to fix the shit problems\models\textures\levels\buildings from the previous four iterations of the modification.

I'll probably be designing a Construction Yard for them.

But that's alright. My past posts are all that can represent my current views, obviously.

That's nice, what are they giving back to you for being blessed with such a wonderful opportunity? And hey, while we're at it, my previous post doesn't represent my current view on this either! Although I have a feeling that you'll probably leak some more Reborn material once you're back in.

You're one to talk...Absolutely hating Reborn to designing models for them, not hypocritical at all. Then again, you are still an ass...

And once again you prove why you are going to be number one on the list. No flaming, no debating, just a list of idiots like you. You are going to stay number 1 for a LONG time and I doubt you will ever be off of the list. You may find this as a compliment that you are noticed, but then again, it's also like a huge fat woman showing her butt crack when she bends over. You can't help but to see it, but it sure as hell isn't a compliment to her when she notices you looking.
