Is there any way for ya'll to make renguard automaticly shut down when you exit a game? As it is now, it stays running in your sys tray and you forget its there then go to launch another game and it wont untill you shut down renguard 1st... thats a lil annoying. Is there any way to change this?

thanx

yea i'd like it to do that too.

but i do like how u can just minimiz ren and click quit in RG and it lclose ren too makes it faster

Currently it does that because in the next update we are enabling server MOTDS, meaning after you play you can view the RG client and read the MOTD of the server(s) you played on.

No. We will make it popup when renegade closes, though.

macNo. We will make it popup when renegade closes, though.

Yes, maybe create an option for "Ask on Ren close." under a "Preferences" or something like that. I really don't want to "quit the server", "quit the game", AND NOW "quit Renguard".
