<http://stats.cnc-fubar.net/>

kinda a copy off of renstats, these peoples have more images, but quite frankly they were made in paint it seems, Does anyone know how to do this besides these two??? If ya do, i would like to perhaps team up with ya, ill make actually some good ass looken graphix for us to use, and you make the code or w/e but have it with KILLS AND DEATHS ON IT!!!!!!!

CrimsonWhat a ripoff of Dante's code.

lol, i dont wwna rip off anything, just tweak it so it iwll show kills and deaths, and make graphics taht are better than the ones out there now, i think people will like it a lot

Madtone, ill make a few examples of graphics today if i get time, send them to you ill even get us the webspace if it works I know ur good too so you could make grphatics if ya want also

Im starting to veer away from GFX these days, im more into Coding than anything.

---

I have the webspaces all sorted, no worries about that.

Awaiting the images and then we'll go from there!

hopefully you were going to ask me for permission to use my code first before starting another site with them?

cowmisfit, whatever you want for the images, let me know, i will hook you up, i have made many advancements to these "image stats" over the last couple of months..

consists of 2 images, and 2 fonts, pulled from an xml file that is dataminced daily.

i've already started my downhill.. My GFX are getting worse day by day.

My latest attempt:

As you can see i just lack the inspiration these days, i don't know!

Anyways, less GFX an more coding!

Madtonei've already started my downhill.. My GFX are getting worse day by day.

My latest attempt:

As you can see i just lack the inspiration these days, i don't know!

Anyways, less GFX an more coding!

If you say that sucks, than ill never get good. Ill be happy if i could become half as good as you - The reason being im not so good is because im not artistic. As for you.... Damn

What kind of coding are you working on then?

---
